

1900EN

Encapsulation Coupling

The **1900EN Encapsulation Repair Coupling** provides the fastest permanent repair fitting used to repair leaking pipe joints or split pipe.

- suitable for any type of pipe
- 360 degree coverage
- can be fabricated to go over obstructions on a waterline such as a pipe joint or coupling
- installation only requires a torque wrench
- easy installation to be performed on side bolts only

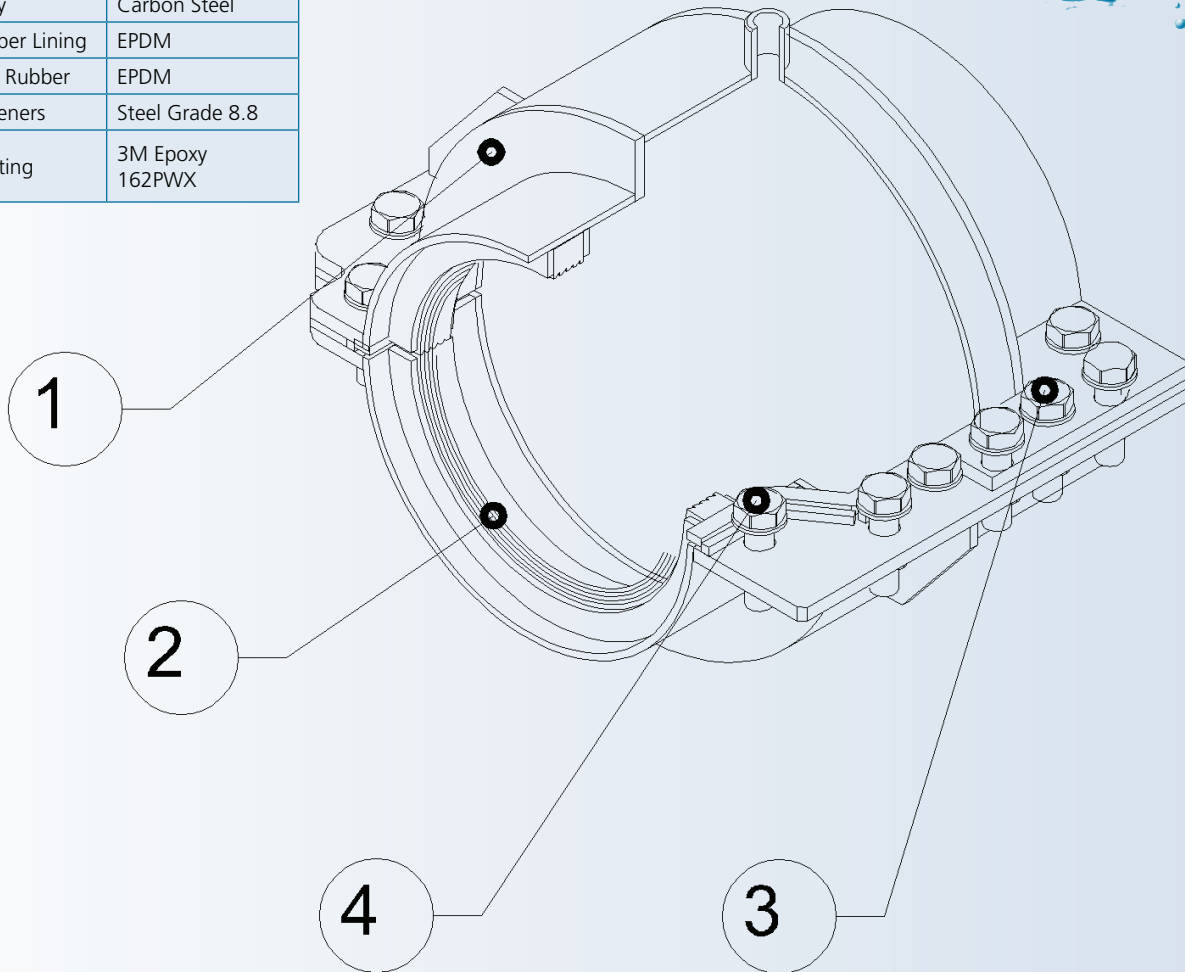

1900EN

Encapsulation Coupling
